EXPERIENCE

CodeAsylums, Pune — *Developer Intern*

May 2018 - July 2018

Codeasylums is a kind of resource center where people can come and learn about different technologies and make their own pathway to prepare for their future (in terms of placements, product development, or research)... Where mentorship is provided by company officials...

PROJECTS

Restaurant Based Web Application — *Restro Eats Jun 2018-Till Present*

A restaurant based table booking web app which enables the users to book a table beforehand in nearby hotels and can also be used for ordering foods and make payment directly. A full-fledged app based on Html, CSS, JS with Flask built APIs along with SQLiteDatabase to store data and SQLAlchemy..

React based E-Shopping Cart Application - Shopify — *Jun 2018*

An E-commerce website which uses APIs to get data of different products and displays the same, thus enabling users to add them to cart and make payment for the same. Made with the ReactJs framework, thus enabling the high-end UI.

Website which suggests you videos and quotes according to your mood- *FIX IT—Jun 2018*

In this website you have to select your mood and accordingly it will load videos and quotes.

I have used JAVASCRIPT, HTML, CSS, BOOTSTRAP in it. And also JSON data from Google maps API, Youtube API, and quotes API.
